Impact Product Presentation

Flexible Design Printing

Secure Packaging

AW-5600CP Wrapper

8055600CP1 AW-5600CP is the basic model of the 5600 series, providing an impressive 30 packages/minute throughput in a reduced-cost design. The compact form factor retains the full-spec 300 dpi high-res printer and extra-large full-color touch-screen display that are standard with the 5600 series. The newly developed rotational labeler arm allows fully automatic application of linerless labels. Variations include models with manual or automatic label application.
