SM-5500 PC Based Scale

DIGI SM-5500 is a PC Based scale that will boost operations revenue, enhance operations with integrated queue and collection system through various innovative functions.

Linerless Labels with Auto-Cutter Available

The SM-5500 is available with an optional built-in auto-cutter feature for linerless labels . The system can automatically detect label size, so only one type of label is required for all printed labels.

Interactive Screen Display

SM-5500 is available in 12" WVGA customer display screen that can display customized information, such as recipes, promotions, and advertisements. The screen has the ability to show both video and still images on customer display.

SM-5500 BCON   5955500

SM-5300 PC Based Scale

DIGI SM-5300 is a PC Based weigh-labeler offering linerless function with the auto-cutter feature.

Economical, Efficient, & Eco-Friendly

Without the liner film sheet, the number of labels per roll will be increased significantly. Operational period is lengthened with few pauses for label changing downtime.

Interactive Customer Display

SM-5300 comes with a 7" WVGA customer display that shows useful information to your customer, such as recipes, up sell, and cross sell. The screen has the ability to show still images on customer display.

5955300

SM-6000 PC Based Scale

DIGI SM-6000 is equipped with an innovative 8" high contrast color customer display and three groundbreaking technologies that free up time and space for user: Built in wireless, integrated Speed ID and info tag support included.

Functional and Intuitive Interface

A new user interface with multi-gesture provides a natural and intuitive operation. Even first-time users with little or no training are able to operate system.

Linerless Label Functionality with Auto-Cutter

Fit in twice as many label prints on a single label roll without the liner film sheet and enjoy zero backing paper waste at work. Create different label prints of variable lengths at ease and reduce roll replacement for workplace efficiency.

   Speed ID: Clerks wear a Speed ID tag on their uniform, which is detected automatically by standing in front of the scale.
